MultiPump
ELECTRIC DRUM PUMP

INSTRUCTIONS AND PRECAUTIONS
※ Read all instructions and precautions before use.

PART CODE: CTS2024

Centre Tank Services Ltd
Unit 41 Minworth Industrial Park, Forge Lane,
Sutton Coldifield, West Midlands, B76 1AH

Specifications are subject to change without notice.
Specifications (PART CODE: CTS2024)

| Delivery volume | Approx. 16 LPM (4.2 GPM) @ DC 12V or Water |
| Suction pipe length | Approx. 615 ~ 905mm |
| Discharge hose length | Approx. 2m (6.6ft) |
| Applicable liquids | DEF(AdBlue), Water, Antifreeze, Windshield washer fluid, Mild detergents, Agricultural chemicals, Light oils. |

Directions for Use

1. Adjust the length of the suction pipe to fit the drum (tank). Insert the suction pipe into the drum (tank).
2. Tighten the drum bung adapter.
3. Connect the power supply to the Pump.
4. Pull out the nozzle from the nozzle holder.
5. Place the nozzle into the receiving container to transfer liquid.
6. Toggle switch ON(Up).
7. Pull the nozzle lever and start supplying the liquid.
8. Release the lever when the liquid supply is completed.
9. Toggle switch OFF(Down).
10. Pulling the lever of the nozzle, lift it up.
11. Let the left-over liquid in the hose flow back into the drum (tank).
12. Insert the nozzle in the nozzle holder for storage.

Precautions for Use

DANGER
- Do not use this pump for transferring the following liquids: Aceton, Benzen, Cresol, Ethyl, Phenol, Methyl ethyl, Concentrated caustic soda liquid, Nitric acids, Hydrochloric acid, Sulfuric-acid, thinner or solvents, etc.
- Do not use for concentrated acids.
- Only use on applicable liquids written on the specifications.
- Make sure to use the pump on even surface.
- Do not use when the cable and plug is damaged or if plug is loose on outlet.
- Keep the power supply adapter out of direct sunlight, water vapor, soft coal, dust, and damp air etc.
- Do not touch and operate any plug or power supply units with wet hands.
- Do not use for concentrated acids.
- Only use on applicable liquids written on the specifications.
- Make sure the pump is tightly secured to the drum (tank) before turning the pump on.
- Do not refuel directly while the vehicle or equipment is turned on.
- Do not leave the pump unattended.
- Do not allow children to operate the product without adult supervision.
- Wash and clean out the outlet, plug, and plug blades regularly.
- If the power supply adapter falls into the water, pull the plug out and do not reuse it.
- Keep the outlet, plug, and plug blades clean regularly.
- Make sure to turn off the power after using the pump.
- Do not run the pump ‘dry’ or let the pump idle without transferring.
- Do not run the pump for longer than 15 minutes.
- Make sure to remove any left-over liquid in the discharge hose after each use.
- After using the pump, do not keep it on its side or upside down.
- Do not alter or disassemble the pump.
- Do not shock the pump and power supply adapter. Also do not make the power cord tense.
- When cleaning up the pump, do not use thinner, benzene, organic solvent, or glass cleaners.

WARNING
- Make sure the pump is tightly secured to the drum (tank) before turning the pump on.
- Do not refuel directly while the vehicle or equipment is turned on.
- Do not leave the pump unattended.
- Do not allow children to operate the product without adult supervision.
- Wash and clean out the outlet, plug, and plug blades regularly.
- If the power supply adapter falls into the water, pull the plug out and do not reuse it.
- Keep the outlet, plug, and plug blades clean regularly.
- Make sure to turn off the power after using the pump.
- Do not run the pump ‘dry’ or let the pump idle without transferring.
- Do not run the pump for longer than 15 minutes.
- Make sure to remove any left-over liquid in the discharge hose after each use.
- After using the pump, do not keep it on its side or upside down.
- Do not alter or disassemble the pump.
- Do not shock the pump and power supply adapter. Also do not make the power cord tense.
- When cleaning up the pump, do not use thinner, benzene, organic solvent, or glass cleaners.

CAUTION
- Make sure the pump is tightly secured to the drum (tank) before turning the pump on.
- Do not refuel directly while the vehicle or equipment is turned on.
- Do not leave the pump unattended.
- Do not allow children to operate the product without adult supervision.
- Wash and clean out the outlet, plug, and plug blades regularly.
- If the power supply adapter falls into the water, pull the plug out and do not reuse it.
- Keep the outlet, plug, and plug blades clean regularly.
- Make sure to turn off the power after using the pump.
- Do not run the pump ‘dry’ or let the pump idle without transferring.
- Do not run the pump for longer than 15 minutes.
- Make sure to remove any left-over liquid in the discharge hose after each use.
- After using the pump, do not keep it on its side or upside down.
- Do not alter or disassemble the pump.
- Do not shock the pump and power supply adapter. Also do not make the power cord tense.
- When cleaning up the pump, do not use thinner, benzene, organic solvent, or glass cleaners.

Names of Parts

- Nozzle
- Toggle Switch
- AC/DC adapter
- Drum bung adapter
- Adjustment nut
- Discharge hose
- Suction pipe
- Operating lamp (LED)
- Buttress adapter
