

## 1GS

100lpm, 1" F BSP

The most popular automatic shut off nozzle in the Husky range, designed for the refuelling of larger vehicles and agricultural and plant machinery.

- Stream Shaper® can be fitted by purchasing the optional Stream Shaper replacement spout.
- Flo-stop® device for shutting off flow when spout is raised above the horizontal or falls out the tank
- Durable die cast aluminium nozzle body for heavier duty applications with full scuff guard
- Useful anti-air lock feature for simple and easy priming of pump without removing nozzle from hose
- Integrated hook for hanging nozzle without a holster
