

WHY CHOOSE CTS FOR ADBLUE® EQUIPMENT?

- ✔ A complete AdBlue® handling offering for drum, IBC and tank dispensing
- ✔ The exclusive UK importer of Piusi; the OEMs choice of AdBlue® equipment
- ✔ Pre-sale product selection advice and after-sales technical support
- ✔ Goods available for immediate dispatch from our 14,000 sq ft. warehouse
- ✔ We can offer marketing support including literature branded with your logo and details

THE ADBLUE® PRODUCERS' CHOICE...

The Suzzara Blue range of AdBlue® equipment from Piusi is the leading brand in urea/DEF transfer, and the preferred choice of many OEM tank manufacturers and the AdBlue® producers themselves. As the UK agent for Piusi, Centre Tank Services' AdBlue® handling product offering is known for its quality and reliability.

ADBLUE® PUMPS

From simple manual hand pumps for drums to sophisticated electric pump kits, our range accommodates for all AdBlue® dispensing applications.

ADBLUE® NOZZLES

Cost effective manual and reliable automatic nozzles with magnetic spouts for preventing the costly miss-filling of AdBlue® into the vehicle diesel tank.

TANK ALARMS

Industry leading tank alarms for alerting of a high level, low level or a bund leak. AdBlue® probes are encapsulated to ensure reliable cut off even when crystallised.

More of our range

- ✔ Drum hand pumps
- ✔ Flow meters
- ✔ Hoses & reels
- ✔ Level gauges
- ✔ Valves & fittings
