AUTOMATIC AIR/WATER HOSE REEL

EN. The hose reels are suitable to distribute air for professional use. They are compact, resistant and of easy installation. The incorporated revolving bracket permits the orientation of the hose reel following the hose direction.

Features:

- Corrosion resistant: the hot galvanized steel structure is moulded and coated with electrostatic polyester powder UV rays resistant
- The hose can be locked at the desired length
- Easy and versatile installation through bracket pivots
- Compatibility: polyurethane hoses reinforced with textile braid
- spring-driven retractable hose
- Hose stop

ES. Enrolladores diseñados para la distribución de aire comprimido con uso profesional. Compactos, resistentes y de fácil instalación. El soporte giratorio incorporado permite la orientación del enrollador de manguera siguiendo la dirección de la manguera.

Características:

- Resistente a la corrosión: su estructura en acero estampado y barnizado con polvo de políester es resistente a los rayos UV
- La manguera se puede bloquear a la longitud deseada
- Instalación fácil y versátil a través de pivotes del soporte
- Compatibilidad: manguera de distribución y conexión en poliuretano reforzado con malla textil
- operación de rebobinado automático
- parada de manguera

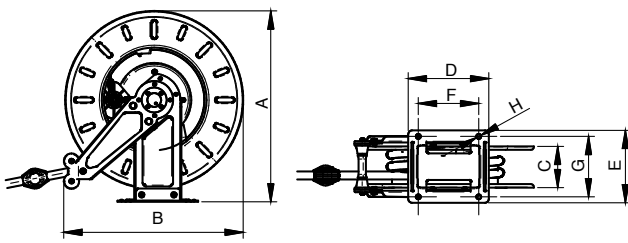

PT. Os enroladores de mangueiras são destinados a distribuir ar para uso profissional. Eles são compactos, resistentes e de fácil instalação. A braçadeira de enrolamento incorporada permite a orientação do enrolador da mangueira, seguindo a direção da mangueira.

Características:

- Resistência à corrosão: a estrutura de aço galvanizada a quente é moldada e revestida com pó de poliéster eletrostático, resistente aos raios UV.
- A mangueira pode ser bloqueada no comprimento desejado
- Instalação fácil e versátil através de articulações de suporte
- Compatibilidade: mangueiras de poliuretano reforçadas com trançado têxtil.
- mangueira retrátil acionada com mola
- Bloqueio da mangueira
